

About the course

The General English course is organized by the British Council to help you develop fluency through interactive classes and the ability to choose the skills you need to focus on more which means reaching your English goals faster.

The course consists of three parts:

- Fixed English classes
- Self-directed study
- Flexible English classes

Our lessons will be delivered through the British Council's online educational platform and with the support of ZOOM for flexible English classes.

Teaching methodology

The English language online platform provided by the British Council is very useful in helping students achieve the desired educational results through integrated classes and safe video conferencing communication with your teacher.

A recent study on online learning has proven to increase student participation and retain what has been learned through virtual and integrated classes and a mini-learning method so that mini-learning allows lessons to be divided into chunks that are easily absorbed and retained for a long time for their scientific content to apply in your daily life and move from awareness-raising to language practice, which is faster than the traditional educational methods.

To get the most out of the course, you will participate highly effectively through:

- **Fixed English lessons**, in which you learn the skills you need for your level with your teacher
- **Targeted self-study / guided-learning**, in which is before the lesson. It provides you with the language and skills you need to interact in the virtual classroom with the teacher and get the most out of the class
- **Flexible English lessons**, which offer more training and practice by choosing areas that you need to focus more on with other students and your teacher such as speaking, writing, reading, listening, grammar, business English and IELTS.

Flexible English classes

Flexible English classes allow you to choose study hours according to your interest, as follows:

- ❖ Speaking Classes – Improve your fluency through speaking about daily life topics and situations.
- ❖ Business Classes – Improve your English for Business through activities that simulate your work environment and its needs.
- ❖ Grammar Doctor – Improve your grammar by solving common Grammar problems.
- ❖ IELTS Doctor – Learn from experts how to prepare for the needed IELTS band score
- ❖ Writing Doctor – Learn how to write for work, study and/or for fun.

How is your progress evaluated with us?

Your progress will be assessed every two weeks according to the following criteria:

- Task achievement
- Pronunciation
- Fluency
- Range and appropriacy (the use of the English language in its correct context and the diversity of the use of grammar and lexis)
- accuracy
